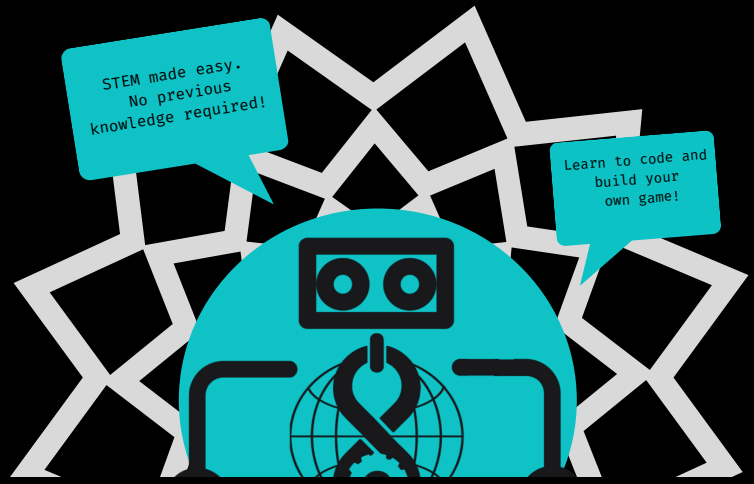
GESELLSCHAFT FÜR INFORMATIK

BYTE is the digital learning centre for you.

Here you learn for your future: individually, digitally, interdisciplinarily, with videos.



BYTE Challenge
One bit at a time

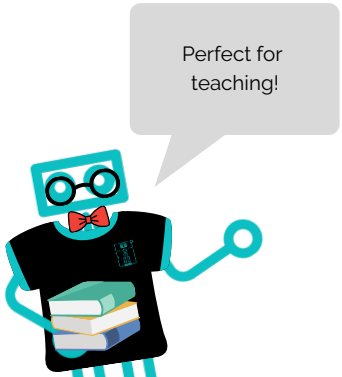
BYTE Challenge
One bit at a time

100% ehrenamtliches, gemeinnütziges Projekt
der Gesellschaft für Informatik e.V.

BYTE is a collection of digital, low-threshold STEM courses as well as Junior Coding Academy with a social perspective.

It is aimed at students with no previous knowledge.

We offer **students, teachers** and **entire classes** a wide range of **free courses** to create a more diverse and innovative educational landscape.



OUR MISSION

WE DIGITALISE DIGITAL NATIVES

Digital natives are not afraid to use technical devices.

We ensure that they are confident and, first of all, safe in the digital world

-

that they understand the importance of digitalisation in all professional fields and are well prepared for the future.

Technical requirements:

- Internet with "normal" speed
- Common browser
- PC, laptop, tablet or smartphone

BYTE is **100% free of charge**

The BYTE Challenge consists of learning about the digital world by collecting $Bytes in a fun experience.

"$Byte" points can be earned upon successful completion of courses.

Courses can be combined in any way, we offer **different levels** of **difficulty**, for **individual** as well as for **group learning**.
